## EDUCATIONAL BACKGROUND

### Bulacan State University

Hagonoy, Bulacan 2022-2026

*Bachelor of Industrial Technology*

*Major in Computer Technology*

*General Weight Average (GWA): 1.55*

*Relevant Coursework: Computer Hardware Servicing, Computer Networking, Operating Systems, Database Management, Web Development, Programming Fundamentals, System Analysis and Design, Embedded Systems & IoT, Computer Systems Maintenance, Technical Support*

## INTERNSHIP / OJT EXPERIENCE

### Municipality of Hagonoy – Sto. Niño Poblacion, Hagonoy

*On-the-Job Trainee (OJT)* | Dec 2025 – Mar 2026

- Troubleshoot and repaired computers, printers, and other hardware to resolve technical issues.
- Installed, configured, and formatted Windows operating systems for deployment and maintenance.
- Assisted with network installation, UTP cabling, and basic network configuration.
- Performed printer maintenance and provided technical support to staff for hardware and software concerns.

## ORGANIZATIONS & CAMPUS INVOLVEMENT

### Future Industry Professionals Organization (FIPO)

Assistant Digital Artist (Acting Lead Designer) | 2023 – 2024

- Created promotional materials and digital content for organizational events and student activities.

## PROJECTSs

### Smart Hydroponics Farm Website (<https://www.smarthydrofarm.com>)

- Developed a web-based smart hydroponics monitoring and management system using HTML, CSS, JavaScript, PHP, MySQL, and REST APIs for real-time ESP32 IoT communication.
- Implemented real-time monitoring, remote control, and automated data collection features, contributing to an award-winning Smart Hydroponic Vertical Farming system.

### Ivan Movies – Web-Based Movie Streaming Interface (<https://ivnx9.github.io/movies/index.html>)

- Developed a web-based movie browsing and streaming platform using HTML, CSS, JavaScript, PHP, MySQL, and a PHP API, featuring categorized movie listings, a Smart TV-style interface, and a full screen video player.
- Implemented keyboard and remote-style navigation, QR code pairing, and Socket.IO-based phone remote control through a Render-hosted server for seamless TV interaction.

## ADDITIONAL

### ACHIEVEMENTS & CERTIFICATIONS

Best in Thesis Award – A Solar-Powered Automated System with remote management for Smart Hydroponic Vertical Farming, Bulacan State University, **June 2026**

Certificate of Completion: Install and Configure computer systems - TESDA **May 2025**

Certificate of Completion: Set-up Computer Networks - TESDA **May 2025**

Certificate of Completion: Set-up Computer Servers - TESDA **May 2025**

Certificate of Completion: Maintain and Repair Computer Systems and Networks - TESDA **May 2025**

Certificate of Completion: Introduction to Internet of Things – CISCO **September 2024**

## TECHNICAL SKILLS

**Programming Languages:** JavaScript, PHP, Java, C++

**Web Development:** HTML, CSS, REST API, JSON

**Database:** MySQL, phpMyAdmin

**Tools & Software:** GitHub, Figma, Canva, Microsoft Office, VS Code, Selenium

**Embedded Systems / IoT:** Arduino, ESP32

**Backend Development:** PHP, API Development, HTTP Requests, JSON Data Processing

**Networking:** Network Installation and Configuration, UTP Cabling, TCP/IP Fundamentals

**System Administration:** Windows OS, Windows Server, Basic Active Directory, Microsoft 365

**IT Support:** Computer Troubleshooting, Printer Troubleshooting, Hardware Installation and Maintenance, Technical Support
