SUMMARY

Recent Bachelor of Industrial Technology major in Computer Technology graduate with experience in web development, API integration, database management, and IoT systems. Developed a smart hydroponics monitoring platform using JavaScript, PHP, MySQL, and ESP32 devices. Seeking an entry-level Software Engineer, Application Developer, or Web Developer position to contribute to software solutions while continuously expanding technical expertise.

TECHNICAL SKILLS

Programming Languages: JavaScript, PHP, Java, C++

Web Development: HTML, CSS, REST API, JSON

Database: MySQL, phpMyAdmin

Tools & Software: Github, Figma, Canva, Microsoft Office, VS Code, Selenium

Embedded Systems / IoT: Arduino, ESP32

Backend Development: PHP, API Development, HTTP Requests, JSON Data Processing

Networking: Network Installation and Configuration, UTP Cabling, TCP/IP Fundamentals

INTERNSHIP / OJT EXPERIENCE

Municipality of Hagonoy – Sto. Niño Poblacion, Hagonoy, Bulacan

On-the-Job Trainee (OJT) | Dec 2025 – Mar 2026

- Performed troubleshooting and repair of computers, printers, and other hardware
- Installed and configured **Windows OS**, including system formatting and setup
- Supported **network installation**, including UTP cable layout and basic configuration
- Conducted printer maintenance such as resetting and basic repairs
- Provided technical assistance to staff for IT-related concerns
- Designed basic visual materials using **Canva**

ORGANIZATIONS & CAMPUS INVOLVEMENT

Future Industry Professionals Organization (FIPO)

Assistant Digital Artist (Acting Lead Designer) | 2023 – 2024

- Created promotional materials and digital content for organizational events and student activities.

PROJECTS

Smart Hydroponics Farm Website

- Developed a web-based smart hydroponics monitoring and management system using HTML, CSS, JavaScript, and PHP
- Designed and implemented REST-style API endpoints for communication between ESP32 IoT devices and the web dashboard using HTTP and JSON
- Processed, stored, and managed real-time sensor data using MySQL and phpMyAdmin
- Developed features for real-time monitoring, remote control, and automated data collection
- Collaborated in the development of an award-winning Smart Hydroponic Vertical Farming system
- Link: <https://www.smarthydrofarm.com>

LegitSource – Learning Resource Website

- Developed a personal website that curates and organizes learning resources for self-learners
- Built using HTML, CSS, and JavaScript
- Designed a clean and user-friendly interface for easy navigation of categorized links
- Focused on accessibility and simplicity for users exploring online educational content
- Link: <https://legitsource.coolpage.biz/>

Ivan Movies – Web-Based Movie Streaming Interface

- Developed a web-based movie browsing and streaming interface using HTML, CSS, JavaScript, PHP, and MySQL
- Built a dynamic movie listing system that loads movie data from a PHP API and displays movies by category
- Designed a Smart TV-style user interface with hero banner rotation, movie cards, movie details page, and fullscreen video player
- Implemented keyboard and remote-style navigation using JavaScript for arrow keys, Enter, Back, and fullscreen controls

- Integrated Socket.IO through a Render-hosted server to allow users to control the app using a phone as a remote
- Added QR code pairing so users can scan with their phone and connect to the TV interface through a session-based remote control system
- Link: <https://ivnx9.github.io/movies/index.html>

ACHIEVEMENTS & CERTIFICATIONS

Best in Thesis Award – A Solar-Powered Automated System with remote management for Smart Hydroponic Vertical Farming, Bulacan State University, **June 2026**

Certificate of Completion: Install and Configure computer systems - TESDA **May 2025**

Certificate of Completion: Set-up Computer Networks - TESDA **May 2025**

Certificate of Completion: Set-up Computer Servers - TESDA **May 2025**

Certificate of Completion: Maintain and Repair Computer Systems and Networks - TESDA **May 2025**

Certificate of Participation: In-Plant Visit at the Provincial Information Technology Office (PITO) Bulacan Provincial Capitol Building, City of Malolos, Bulacan **November 2024**

Certificate of Completion: Introduction to Internet of Things – CISCO **September 2024**

Certificate of Participation: Introduction to Radio Access Network - ASIA OPEN RAN ACADEMY **September 2024**

Certificate of Participation: Software-Defined Networking, Openflow, NFV, & OPEN RAN – ASIA OPEN RAN ACADEMY **September 2024**

Certificate of Participation: Introduction to Cloud Computing - ASIA OPEN RAN ACADEMY **August 2024**

Certificate of Participation: Introduction to Edge Computing - ASIA OPEN RAN ACADEMY **August 2024**

EDUCATIONAL BACKGROUND

Bulacan State University – Hagonoy, Bulacan, Philippines <i>Bachelor of Industrial Technology Major in Computer Technology</i>	2022-2026
San Roque National High School – San Roque, Paombong, Bulacan <i>Senior High School</i>	2020-2022
San Pedro National High School – San Pedro, Hagonoy, Bulacan <i>Junior High School</i>	2016-2020
Hangga Elementary School – Hangga, Hagonoy, Bulacan <i>Elementary</i>	2010-2016
